

*I want to live at Belterra because...*

I want to enjoy the security and pride of owning my own home, and I want to live on Bowen Island. Belterra fits my needs and more importantly, my budget.

I want to travel and yet have a stable base to call home - a base that I can simply lock the door and walk away from.

My work takes me away from Bowen for long periods of time. I need a home which is secure and low maintenance.

I grew up on Bowen Island, this is where I work as an adult and a home at Belterra will allow me to stay here and continue the life I chose.

I don't need much room and a small home in Belterra will be just right. The common facilities will be perfect for those times I need more space.

I look forward to watching the hockey game on the common house big screen TV with my neighbours and friends.

I love to work outside occasionally but my busy lifestyle does not always give me time. The cooperative projects like trail building and gardening and rock walls and tree plantings etc. are perfect for me so I can give my time when I have it and allow the project to be completed by others when I don't.

I look forward to the friendships and learning from others who have chosen to live in Belterra.

I love kids but I'm not ready for my own. I look forward to getting to know all the Belterra kids - and their mom's and dad's too.

*For all these reasons and many more, Belterra will certainly become my next home.*
